## PROJECTS

### DSA Simulator

- Developed a responsive DSA Simulator to perform and visualize array, linked list operations, different sorting, searching, and graph algorithms with dynamic user input.
- Utilized React for the frontend and Tailwind CSS for creating a modern, responsive design.

### E-commerce Website

- Developed a responsive full-stack e-commerce platform using React, Node.js, Express.js, and MySQL with features like product listing, filtering, cart, user authentication, and admin panel.
- Implemented seller and inventory management, warehouse operations, and secure access using role-based actions, session tokens, and activity logging.

### Task Manager App

- Built a Flutter-based Android app for managing and tracking tasks with calendar integration, allowing users to schedule tasks, set daily/weekly routines, and view weekly/monthly summaries.
